12.5.2 – Progression from the heats to the semi-final will be based on the best results of the athlete from both heats. It is mandatory to start in both heats runs.

12.5.3 – Progression system:

Number of entries	Number of athletes progressing to the Semi-final	Number of athletes progressing to the final
17 to 18	15	12
19 to 20	16	
21 to 22	18	
23 to 24	20	
25 to 26	22	
27 and more	24	

ENTRIES BY EVENT

Event	Heats	Semi	Finals
Men's Canoe Single	20	16	
Men's Kayak Single	24	20	12
Women's Canoe Single	21	18	
Women's Kayak Single	25	22

12.5.4 – Boats must have a valid result to progress to the next competition phase.

12.5.5 – Results calculation for the heats phase:

12.5.5.a – After the heats, at least one valid heat result is needed to progress to the Semi-final.

12.5.5.b – Athletes not receiving DNS in one of their heats runs are sorted by their best valid result.

12.5.5.c – Athletes receiving DNS in one of their heats runs are ranked by their valid result after the athletes having a valid result and no DNS.

12.5.5.d – Should two or more athletes receive the same invalid results, they will be listed by NOC code within the same invalid results group.

12.5.5.e – After Heats, athletes with two different invalid results will be ranked/sorted according to their best run (DNF, followed by DSQ followed by DNS).

12.5.5.f – In the Heats, if two or more athletes obtain the same result for their best run, the result of their other run will resolve the tie. If boats are still tied, they are given the same ranking, and all will qualify to the semi-final (if it is a progressing position).
