D. Canoe and Kayak Events

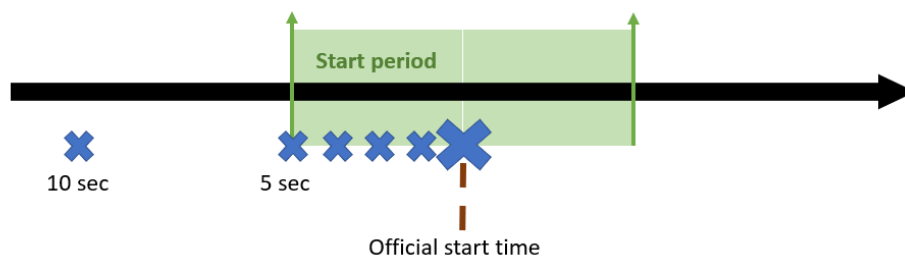

Pre-start procedure

- There will be a clock showing race time and the next athletes to start above the start.

Start

- The starting boat must be alongside the pontoon, facing downstream.
- The beamline is below on the rocks.
- Athletes may move to the start position once the previous Athlete has broken the beam but must be at the start position 15 seconds before their start.
- At all times, the athletes must follow the Starter's instructions, or they may be disqualified for the run.
- For the Teams event one Athlete must be in the start at the pontoon (and be the first to break the beam). The second and third athlete can choose their own position but must remain behind the pontoon.
- At the start, there will be a countdown clock showing the time to start. There will be an acoustic signal (10 seconds before start, and then from 5 seconds before start - 4 shorts, 1 long - start).
- Athletes may start 5 seconds on either side of their official start time which is signified by the long beep on the start clock.

Finish

- The finish beam is just above the rocks before the last roll.
- All Athletes must exit on the left to pass through equipment control and the media area.
- Athletes must not leave the finish zone until dismissed by the Equipment Control Official once they are no longer needed for the ceremonies, anti-doping or equipment control.

E. Kayak Cross events

Start & Finish line

- An automatic start machine will be used for all phases.
- The start time for Time Trials is triggered by activation of start ramp and finish times are triggered by photocell.
- During the Elimination phase a photo finish system will be deployed

Pre-start procedure

- Athletes need to be at the pre-start area prior to their start to prepare their boats (and equipment control during the Elimination phase), and receive any final instructions (coloured bibs distribution, choosing their start lane).
- Athletes need to have completed equipment control, bib collection and be lined up ready to go at least 1 bracket before theirs or risk missing their start.

Start procedure

- At all times the athletes should follow the starter's instructions.
- The start position is with both hands on the paddle and along the side of the kayak. The paddle must be parallel to the plane of the platform. The front hand has to be placed on or over the middle line of the boat on one side and touching the boat or the spray deck.

- The start orders will be the following ones:
 - 1) "In position" => the athletes must place their paddle in the start position
 - 2) "Ready" => the athletes wait in steady position; no movement is allowed following the "Ready" command
 - 3) The platform will tilt to indicate the start. The starter will not say "Go".

Time trials

- Athletes must start from lane 3 on the platform for the Time Trials (third lane from river right)
- The start interval is 40 seconds, athletes should get in their boat behind the platform. They will then be assisted to move to the starting lane.

Elimination phases

- Athletes should be settled in the start position on the ramp 90 seconds before their start time. There will be volunteers to assist them if needed.
- They should then listen to the sports presentation where they will be introduced to spectators.

Finish

- The Finish line will be located in front of the tribunes 25 m after the junction of the two channels.
- Please return the borrowed boats, spray decks and bibs to the start.
- Volunteers will be there to help your Athlete if needed on the ramp.
- At the start a Pre Start Official will inform your Athlete if they have progressed.

Rules reminder

Remember all Kayak Cross rules apply during the competition and official training periods.

- Helmets must be on the ICF list:
https://www.canoeicf.com/sites/default/files/2024_icf_kayak_cross_helmet_list-v1.pdf
- All buoyancy must be above the waist, meet EN norms see:
https://www.canoeicf.com/sites/default/files/2022_extreme_kayak_buoyancy_rules_v1.pdf
- The paddles
 - Blades must be 5mm thick for the whole edge of the blade
 - A gauge will be used to measure the paddle blade radius.
 - The whole length of the blade edge must fill or not enter in the gauge
 - Any paddle not complying will not be allowed.
 - There can be no sharp edges on the blade
- During Qualification (Time Trials) and Elimination phases, the athletes must wear long sleeves
- If an athlete or their equipment falls from the platform before the "ready" =>DNS. They must exit from the start platform or the course.
- Any movement between "Ready" and the tilt of the Start machine=> FLT at the start
- Whole head and both shoulders must cross the gate line in the correct direction.
- Kayak Roll - at some point, the Athlete needs to be 'upside down' under the barrier. The boat is considered 'upside down' when the Athlete's head is completely under the water. Be aware this means a 'kick flip' roll would not be acceptable.

- Moving gates in an unfair way to disadvantage other athletes => RAL
- Athletes are permitted to "reach across" but not hold back other athletes
- An athlete with a broken paddle must drop back and paddle down the course alone. If they do not, the broken end of the paddle is considered dangerous = RAL. They may drop the broken paddle and use their hands to finish the course.
- Using a photo finish to break tie in elimination phase – this is measured on the bow of the boat.

For Vote at this meeting

Interval during time trials

Existing rules:

10.2.1 - In individual events, starts are separated by at least forty-five seconds.

The proposal is to use a 40 sec interval. **Voted and accepted**

Kayak Cross Training

- Additional Kayak Cross training sessions have been scheduled during the slalom competition, see the updated schedule on Team Info on the website.
- Please note that there is only limited time for these sessions which may be crowded, please respect other athletes.
- When the ramp is in the operation, athletes must not paddle under the ramp. They either start on the ramp or put in below the ramp.
- Athletes must exit before the bridge where the channels merge, they must not enter the slalom course.
- If an athlete paddles under the ramp or enters the slalom course all athletes from their federation will no longer be able to train in the Kayak Cross sessions.
