## WELCOME

### to the World Cup of the world's best slalom canoeists

The city of Markkleeberg is happy and proud to host once again one of the ICF Canoe Slalom World Cups. From 30<sup>th</sup> of August to 1<sup>st</sup> of September 2019 the best paddlers from all over the world will ride a slalom course in Germany - in Markkleeberg. We will be glad to see many adrenalin filled races of speed and skill.

Only the best can tackle the tides, dodge the obstacles, and speed through up to 25 gates in a race against the clock. Therefore we expect many athletes, who won and competed in Olympic Games, World and European Championships.

200 athletes from 35 nations are glad to start once more in Markkleeberg and the German National team is always dedicated to enter the course of the 2015 European Championships especially due to the great audience at the home course and the exciting atmosphere.

The host "Leipziger-Kanu-Club" under the experienced guidance of Frithjof Bergner and Christoph Kirsten guarantees together with his long time approved staff an excellent organised event. Although it remains however again and again a great challenge to organize an ICF Canoe Slalom World Cup in Germany.

My first gratitude does not only apply to the mentioned persons but also particularly to more than 150 volunteers, who were committed to prepare best preconditions for the ICF Canoe Slalom World Cup Final in the last months and especially in last weeks.

Special thanks to the persons in charge of the City of Markkleeberg as well as to the patrons and sponsors, whose support makes this highlight finally possible.

I wish that all competitions of the Canoe Slalom World Cup will flow smoothly with good water and weather conditions. I keep my fingers crossed for all participants that they will be able to demonstrate their full power at this fourth of completely five Canoe Slalom World Cups once again.

GERMAN CANOE FEDERATION

Yours,

Thomas Konietzko  
President

## GENERAL INFORMATION ABOUT THE HOST CITY

Kanupark Markkleeberg (venue) is situated in the South of city of Markkleeberg which is located in the Middle Eastern part of Germany and enclosed on the city of Leipzig. This region is one of the fastest growing areas in Germany. More than 2 Million inhabitants live within a radius of 50 km and more than 10 Million within a radius of 180 km (including cities like Berlin, Dresden, Erfurt, Halle, Potsdam, Magdeburg).

During the last 25 years the region around the city Leipzig has taken a turn from a coal mining area to a huge tourism area.

Among leisure activities like cycling, rollerblading, hiking, swimming or surfing the White Water attractions of Kanupark Markkleeberg are very popular.

These are the main facts about both the cities of...

	... Markkleeberg	... Leipzig
Area	32 km <sup>2</sup>	298 km <sup>2</sup>
Population	25.000	600.000
Mean annual temperature	13.5 °C	
Mean max. temperature August	23.9 °C	
Mean min. temperature August	13.3 °C	
Mean annual rainfall	43 mm	
Mean rainfall August	59 mm	

Especially the city of Leipzig is the economic, sportive and cultural heart of the Middle Eastern region of Germany. Companies like BMW, Porsche or DHL established factories during the last years. Additionally Leipzig Trade Fair is well known since many decades. Besides the business sector there is a huge cultural environment like the Orchestra of Gewandhaus Leipzig, the Thomaner Choir, Mädler Passage with "Auerbachs Keller" (J. W. v. Goethe "Faust") or facilities like the Opera and a wide range of theatres.

According to the historical development the city Leipzig was named the first time in 1015. In 1190 there was the first trade fair in Leipzig and during the last centuries Leipzig became one of the most important trading towns in Europe. The University of Leipzig was founded in 1409 and since 1990 many research institutes (e. g. Max-Planck-Institut, Fraunhofer-Institut, Helmholtz-Zentrum, Bio City) established in Leipzig. Even the German National Library is situated in Leipzig. Another historical key note is the victory of the Allied forces over Napoleon's army during the Battle of Nations in Leipzig in 1813. Furthermore in 1989 the peaceful revolution started at Nikolai Church Leipzig and more than 100.000 people demonstrated against the former regime of German Democratic Republic.

Besides these economic, cultural and historical key notes the development of sport is another very important constitution in Leipzig. The government of GDR has put a huge effort in developing several sport centers in Leipzig (especially in sports for the Olympic Summer Games). All the canoe slalom Gold medalists of the 1972 Olympic Games in Munich/Augsburg trained and lived in Leipzig and they are still connected to our sport. Also the inhabitants of Leipzig are keen on sports. During the bidding process for the Olympic Games 2012 nearly all people supported the candidature of Leipzig and at least Leipzig won the nationals bidding process against cities like Hamburg, Düsseldorf or Stuttgart.
