ATHLETE INJURY REPORT

The ICF would like to test a new formular to spread over the different paddling communities and disciplines to track the different injuries happening at a competition or during the associated training period.

The formular is fully confidential and can be filled by anyone injured or having observed an injury (coach, staff) at a competition.

The ICF takes the opportunity o the Pyrenees cup to test it, please find the draft version here below : [Confidential Athlete Injury Report - ICF Competitions – Fill in form](#)

Any feedback concerning the formular and/or the related questions can be sent to [@Manon Bocquet](#) or [@Thomas Rosset](#)

Thanks for your involvement and paddle safe
