

Dear National Federations,

The journey to the Olympic Games Los Angeles 2028 has officially begun. To provide full transparency and engagement throughout the qualification period, the ICF is pleased to unveil the **new Olympic Ranking Dashboard for Canoe Sprint**.

 [Click here to access the dashboard](#)

The dashboard provides a live window into the qualification standings, allowing you to **track rankings, explore athlete performances, and access detailed results across competitions**. Paracanoe and Canoe Slalom rankings will be added to the platform in due course.

Detailed information can be found [here](#).

We encourage all national federations to familiarise themselves with the dashboard and share it with your athletes, coaches, and supporters.

Regards,

ICF Team

Always moving forward
